

# KNOXVILLE WHIG

KNOXVILLE, TENN.

SATURDAY, NOVEMBER 16, 1850.

The Presidential Election.

Going to press, we find no evidence of our data, as we of necessity have, in the we have but few returning papers, and these are not so full as we could desire. The fusion ticket succeeded in New Jersey, but failed in New York, and many now remain no doubt of the election of Lincoln by the people. The Telegraphic Dispatches announce—what we have expected—that ANABAL LINCOLN has carried all the North Western and New England States, and he is consequently elected President by the people.

The indications are that Douglass has carried Missouri, while Bell has carried Louisiana, Kentucky, Tennessee, Delaware, Mississippi, Maryland, North Carolina, and Virginia. Breckinridge has carried Alabama, Texas, and Florida. In Memphis, Mobile, New Orleans, Natchez, Columbus, Montgomery, Florence, Huntsville, and most other large Cotton cities and towns, in the South, Breckinridge is the third man.

These are the indications, as furnished by the news received, but they may not turn out as herein set down. It is a conclusion to know that the slave States have decided against Secession, and have arrayed themselves on the side of the Union, and as a consequence to the assault of the contending factions both North and South.

## Vote of Knox County

We give the vote of our county by precinct, and it will be seen that in the whole county, Dension has gained option votes through the failure of some of our men to come to the polls. Netherland was popular, and as an East Tennessean, brought out a full vote. All we could expect to do, was to give Bell his vote.

## Vote of Knox County 1850-51-60.
